

SUSC1 - Streamflow estimate for the Susan River adjusted to observations
SCRN2 - Streamflow estimate for Steamboat Creek near Steamboat adjusted to observations
SCWN2 - Streamflow estimate for Steamboat Creek at Cleanwater adjusted to observations
WOOC1 - Streamflow estimate for the West Fork Carson River at Woodfords adjusted to observations
CEMC1 - Streamflow estimate for the East Fork Carson River below Markleeville adjusted to observations
GRDN2 - Streamflow estimate for the East Fork Carson River near Gardnerville adjusted to observations
STWN2 - Streamflow estimate for the Carson River near Carson City adjusted to observations
FTCN2 - Streamflow estimate for the Carson River near Fort Churchill adjusted to observations
WWBC1 - Streamflow estimate for the West Walker River below Little Walker River adjusted to observations
PSRC1 - Inflow estimate to Prosser Reservoir adjusted to observations
STPC1 - Regulated inflow estimate to Stampede Reservoir adjusted to observations. Estimates account for water removed by the Little Sierra Valley Diversion.
STPC1F - Full natural flow estimate at Stampede Reservoir. This estimate removes the regulation influence from Independence Lake and the Little Sierra Valley Diversion.
BCAC1 - Regulated inflow estimate to Boca Reservoir adjusted to observations. It includes the influence of Stampede Reservoir.
BCAC1F - Full natural flow estimate at Boca Reservoir. This estimate removes the regulation influence from Stampede Reservoir.
FARC1 - Regulated streamflow estimate for the Truckee River at Farad adjusted to observations
FARC1F - Full natural flow estimates for the Truckee River at Farad.
ILAC1 - Inflow estimate to Independence Lake adjusted to observations
LWON2 - Streamflow estimate for Steamboat Creek below Washoe Lake
TRRN2 - Regulated streamflow estimate for the Truckee River at Reno adjusted to observations
VISN2 - Regulated streamflow estimate for the Truckee River at Vista adjusted to observations
BPRC1 - Inflow estimate for Bridgeport Reservoir adjusted to observations
SGNC1 - Streamflow estimate for Sagehen Creek near Truckee adjusted to observations
TAHC1 - Inflow estimate to Lake Tahoe adjusted to observations. Evaporation is included in estimates.
TRCC1 - Regulated streamflow estimate for the Truckee River at Truckee adjusted to observations
DNRC1 - Inflow estimate for Donner Lake adjusted to observations
MTSC1 - Inflow estimate for Martis Creek Reservoir adjusted to observations
TRCC1L - Local flow estimate for the Truckee River at Truckee
STPC1L - Local flow estimate to Stampede Reservoir
BCAC1L - Local flow estimate to Boca Reservoir

FARC1L - Local flow estimate for the Truckee River at Farad

TRRN2L - Local flow estimate for the Truckee River at Reno

VISN2L - Local flow estimate for the Truckee River at Vista

THLC1 - Pool elevation estimate to Lake Tahoe adjusted to observations. Evaporation is included in estimates.

MASN2 - Streamflow estimate for the West Walker River at Snyder Lane adjusted to observations

* Note: Tahoe is the only reservoir where evaporation estimates are included as part of the inflow calculation.
